Three races are out to wreak havoc upon each other as part of a thirty mission singleplayer campaign, each with its own campaign and perspective on the arching storyline.

The controls are so great that anyone with a passing familiarity with real-time strategy can jump right in.. It was not the be-all end-all game many Warcraft II fans were hoping for at the time, but it never really had to be; the game's nearly twenty years in age and is still played online.. Although StarCraft was by no means set to revolutionize the strategy genre, it does serve as hallmark for balanced gameplay, great story, excellent controls and pure fun.
