About This Content

In combination with the photo realistic textures of the buildings and vehicles and a 0.5m/pixel ground texture resolution, the scenery Frankfurt-Egelsbach looks very authentic. The taxiway and runway displays are built according to the original plans. With its high-resolution day and night textures, the animated wind display on the tower and several other animations like hangar doors and the fire brigade the airport feels virtually aroused.

The 1955 opened Airport with its today 25 located companies and around 700 workers became an increasingly important industrial sector and is also used as a helicopter base of the German Police.

FEATURES

- Very detailed representation of the Airport including all its facilities
- Taxiway and runway displays according to original plans
- Photo real textures of buildings and vehicles
- Ground textures (0.5m/pixel)

-
- High-resolution day- and night textures
 - Animated wind display on the tower
 - Several small animations (hangar doors, fire brigade, aeroplane towing and more)

Genre: Simulation

Developer:

Aerosoft GmbH, Stairport Sceneries

Publisher:

Aerosoft GmbH

Release Date: 21 Apr, 2017

b4d347fde0

English,German

Very happy with this. Just bought it on steam and then it magically appeared next time I used X-Plane. Easy, and how it should be. Good detail.
